

INSTRUCTIONS:

In the white/blank/open section on page 2, handwritten something personal about how you have seen Harvest Church work in your life or the community. Be specific. Also, ask – in your own words – for the person to whom you are writing to join what God is doing through their gift. Remember, you are sending this letter to inform them about what God is doing and to ask them to support it through giving. An example may be:

“Since Harvest Church started, I have been blessed to meet some of the most incredible people. I have served alongside people from every walk of life as we have reached our region with the gospel. I hope that you’ll commit to praying for Harvest Church. If you feel led to, I also really encourage you to go to our website and click the button to give to our building campaign. Thanks for reading this! - Eric”

Hello!

First of all, thank you for reading this letter. I know you probably receive a lot of mail, and even a lot of “this type” of mail. It means a lot that you would take the time to read this. I’m writing today on behalf of Harvest Church in Hesston, KS. Since we started in 2024, we have experienced a lot of growth and blessing. God is clearly in this thing! God has used Harvest in a lot of different ways: generating community involvement, raising funds for families in need, supporting our local schools, bringing people back to church who swore they would never come back, and bringing the love and message of Jesus to our region. Being part of what God is doing here has been incredible. Today, we want to ask you to join in through a financial contribution to our new building effort.

So far, Harvest has operated in two auditoriums at our local High School. Then, we were in our local arboretum, which is basically a beautiful garden space with some meeting rooms. After substantial growth, we have moved again - this time to a Christian Camp here in Hesston. Recently, we purchased a reasonable 1.4 acre lot upon which we would like to build Harvest Worship and Event Center. It would function as our worship space on Sunday mornings, but it is our heart that it would become the type of community event center that brings life to our region. Of course it would be used for weddings and the like, but we would also like to see it used as a place for promoting performing arts, for engagement in networking and community building, and for meeting any other community needs that such a space might address. To do this, we are contacting anyone we know who may be interested in investing in God’s mission to our region.
